

# The Clean Atmosphere Act

The application promulgated under subsection (a) of this section shall require the following information as well as other information, as required by the director:

- (1) A detailed description of the contemplated activity, including the purposes, scope, methods, materials, equipment, devices, physical agents and timing of activity in the five (5) day period specified in subsection (a) of this section.
- (2) The following, which shall be included in the materials and physical agents requirement under subsection (1) of this section:
  - (i) Sources, sizes, amounts and concentrations of all materials and the precise chemical formulas of any substance or mixture to be used in the activity;
  - (ii) The resulting product during and following deployment of a substance or mixture listed under subsection (i) of this section;
  - (iii) The biological and/or trans-biological materials used in the activity, along with any potential interactions of the materials and physical agents such as electromagnetism during and following deployment; and
  - (iv) The source equipment, such as tanks, hoses, dispersal jets, and ionizers; generating equipment for various frequencies, modulation characteristics and rates, intensities and concentrations, directions, reflection and duration specifications of any type of electromagnetism or other physical agent to be deployed or potentially released, intentionally or inadvertently, during the activity.
- (3) Proof of safety to life and property, including human and environmental health, during and following the activity, with substantiating evidentiary documents from independent sources.

USA government agencies such as the FCC and NTIA are following United Nations International Telecommunications Union (ITU) 5G & [UN Agenda 2030](#) directives instead of following our laws:

1 [The 1934 Communications Act](#) requirement, at 47 U.S.C. § 324 ch.652, Title III, 48 Stat. 1 091, of minimal necessary radiation signal power

2 The [“Radiation Control for Health and Safety Act of 1968”](#)

3 USA Constitution.

[The Clean Atmosphere Act regulates and prohibits harmful contaminants in our atmosphere and at ground level.](#)
